

22 May 62

NRO

Meeting 22-23 May 1962 between Charyk and Scoville

At these meetings agreement of participants that physical location of NRO would be in proximity to Dr. Charyk's office in Pentagon.

The NRO will approve the total NRP budget and in one manner or another the funds will be made available to the Executive Agents (or Program Directors). Covert contracting will be done by CIA.

The question of classifying the NRO as TS was brought up and it was uniformly agreed that this was unrealistic, and the existence of the office should be treated as "garden variety" Secret. Details pertaining to the structure, missions, participants, etc., would, however, probably require a higher security classification.

Anything going to the SG pertaining to NRP should go through D/NRO.

NRO review(s) completed.
